

# LOADING THE DATASET

The screenshot displays the IBM Cognos Analytics web application. The browser address bar shows the URL `us1.ca.analytics.ibm.com/bi/?perspective=home`. The application header includes the IBM Cognos Analytics logo, a search bar, and a user profile icon. Below the header, there are four introductory cards: 'spreadsheets, csv files, and other data sources.', 'connect data from multiple resources.', 'identifying trends in your data with data exploration.', and 'multi-query dashboards, reports, or stories.'

The main content area is titled 'Recent' and contains a table of datasets. The table has four columns: 'Name', 'Location', 'Type', and 'Last Accessed'. Each row represents a dataset, with a checkbox in the 'Name' column and a three-dot menu icon in the 'Last Accessed' column. The datasets listed are:
